The Reaping Machine.

There died, last month, in a country manse the east of Scotland, a clergyman, the Rev. r Patrick Bell, who deserves to be ranked nong the public benefactors of the age. He as a farmer's son, and it is claimed for him, at, in 1827, while yet a student at college, e invented the reaping machine, which was rst used in 1828, on a farm in Perthshire, eld by his brother. In September, 1867, be- re the British Association for the Advance- ent of Science, then in session at Dundee, hich is only a few miles from the parish of hich he was pastor, Dr. Bell gave an account f the origin of his labor-saving invention, nd the various steps by which it advanced nto practical working order. He says: "One vening after tea, while walking in my father's arden, my eyes caught a pair of gardener's hears sticking in the hedge. I seized them y the handles, which protruded, and I pro- eeded to snap at the twigs of the thorns. My ind was full of mechanics at the time, and any hours were spent in my workshop; nd contemplating the shears attentively, I aid to myself—here is a principle, and is here any reason why it should not be applied o the cutting down of the corn? Not alto- gether satisfied with my performance on the edge, I brushed through it with the shears n my hand to a field of young oats adjoining, nd commenced cutting them right and left. t was well that no neighboring gossip saw ne [illegible] employ, [illegible] the mat- not might have [illegible] readily circulated that he poor student had gone crazed. For weeks and for months, by night and by day, those shears were uppermost in my thoughts, and I searched anxiously and investigatingly for the mode in which they should be employed. Plan after plan presented itself to me, and were put upon paper. The merits of each, and the likelihood of its success were care- fully [illegible] ally I fixed upon the plan now successfully in operation. This took place in the summer of 1827." He had model after model made by the village blacksmith, and finally per- fected one that would work. That is, he had made a *reaping*, which he speedily im- proved into a *reaping machine*, which was suc- cessful even on its first trial in the field, in 1828.

In the *Scottish-American Journal* of the past week [illegible] and highly interesting narative of Dr. Bell's proceedings, as an inven- tor, is given. It says:

Dr. Bell's invention preceded by seven or eighteen [illegible] of the sort in America by years. It is acknowledged to have been the first machine of the kind, and it is reckoned as still [illegible] one of the best. As a recogni- tion of his important service to agriculture, Dr. [illegible] was [illegible] at a meeting of the Highland Society, with £1,000 and a piece of plate, [illegible] subscribed by the farmers of Scotland and others. About the same time he had conferred upon him the honorary degree of LL.D. by the University of St. Andrews. Many years after Dr. Bell had a singular degree conferred on him by an American college, on account of his for his invention of the Reaping Machine; but this, however, he never [illegible]. THE PACIFIC

MUTUAL LIFE INSURANCE CO.,

OF CALIFORNIA,

IS PAID IN,

IN GOLD COIN!!

—AND—

Cost Nothing to be INSURED!

This is Additional Security, Without Cost to the Insured, that the Capital Stock Have its own Interest!

THE PUBLIC CAN ACQUAINT ITSELF WITH the business reputation and standing of the Stockholders and Directors of the Company, and determine from that knowledge whether the affairs of the Company are likely to be honestly and fairly administered for the benefit of the Insured.

POLICIES ISSUED BY THE

PACIFIC MUTUAL

ARE NON-FORFEITABLE,

And by the Laws of California,

EXEMPT FROM EXECUTION!

The Company will at any time make AN ADVANCE of Cash on its Policies as future Dividends.

No permit or extra rates required for traveling East or in Europe.

Policies actually non-forfeitable.

Thirty days grace on the payment of all Premiums.

After two annual payments the Company will, two years after the last payment, issue either a paid up Policy for the [illegible] of Premiums received, or pay the equivalent in Cash.

The rate at which we have been sending money East for Life Assurance will amount, with interest, to at least Ten Millions, by [illegible] A. D., 1876. This enormous sum, as it seems, is totally eclipsed by the magnitude of the [illegible] The Coast is losing for want of it. For instance: If yield in the East of 8 per cent., compounded annually for ten years, is $6,003,167 27; this, at 12 per cent. for four years, and 10 per cent. for [illegible] compounded monthly, $73[illegible],006 62, or a difference of over [illegible] millions!

With these facts in view what Company will likely pay the largest Dividends? The funds of the PACIFIC are all loaned at 1 to 1½ per cent. per month.

Of this large sum it is computed that Oregon and Washington Territory have contributed about one-fourth. This has [illegible] away annually, to keep up the Premiums on Policies already issued, at least six or seven hundred thousand dollars, which if continued will soon [illegible] all of its cash. If to California, it finds its way back here for our productions, a market for which we must look for there.

The applicant need not wait two or three months to know if he is accepted or rejected, but can receive his Policy in less than two weeks, and *in case of death the* money will be paid to the wife in [illegible] short time.

HYCEIAN HOME

WATER CURE,

637 California Street,

Opp. St. Mary's Cathedral, bet. Kearny & Dupont Sts.,

SAN FRANCISCO.

DR. BARLOW J. SMITH

WOULD RESPECTFULLY INFORM HIS FORMER patrons, and all who desire the professional services of a Hygienic Physician, that he has just returned from the East, after an absence of four months, during which time he has visited nearly all the Water Cures in the Eastern States, and the various Hygienic Establishments of New York City, Boston and Philadelphia; and with this new experience feels more fully prepared than ever to meet all the demands that invalids may justly claim who desire to be cured by this rational form of medication.

In January last DR. SMITH purchased the extensive lot corner of Quincy and California streets, with the buildings thereon, which he has fitted up, at great expense, for the accommodation of PATIENTS and BOARDERS, with a greater variety of baths for the cure of DISEASE as well as popular *bathing* that is to be found in any Water Cure in the United States.

HYGEIAN HOME is the only Regular Water Cure in San Francisco, and by far the most extensive and complete Hygienic Institute on the Pacific Coast.

And we offer to Ministers, Teachers, Lawyers, Miners, Merchants, Mechanics, Farmers, and all worthy persons, especially those who have tried drugs faithfully without being restored, and who are still desirous of regaining health by this rational system of medicine, the hospitalities of our Hygienic Home and Cure. Young men who have become debilitated or lost their health by excessive toil, exposure or enervating habits, contracted through ignorance of physical laws, may thus find more of the encouragement they need, and means that will restore them to health, than elsewhere in California.

There is not one man in twenty suffering from Rheumatism, Neuralgia, Gout, or Diseased Liver, Chills and Fever, Dyspepsia, Drug or Secondary Diseases, Spermatorrhea or Seminal Weakness, Impotency or Nervous Debility, Weak or Inflamed Eyes, Bronchical and Catarrhal Affections, Diseases of the Heart, Lungs, Kidneys, Constipation, Paralysis, Scrofula, Piles, Inflammation of the Bowels, Chronic and Acute Diarrhea, Stiff Joints, Oak Poisoning, Weak Backs, Hip Disease, Salt Rheum and many other Diseases so common to Men and Women, that cannot be permanently cured in from two to six weeks by Water Cure and Hygienic treatment. Nobody will they get cured, but they can learn how to keep well when they go to their mountain homes, their mines, their farms, their stores, and all this for one-half what it would cost to take drugs.

Terms $20, by the single week, or $60 for four weeks, Board, Room and Treatment (in all ordinary cases).

N. B.—All suffering from cutaneous diseases are treated in separate baths, which are never used by persons bathing for cleanliness. The greatest care and neatness is observed in this respect. No contagious diseases, such as Small Pox and Ship Fever, treated in the Institution.

We have a separate Medical Department for Ladies, which is attended by a thoroughly competent woman, while the private residence of DR. SMITH, which is connected with the Home, is chiefly devoted to the accommodation of ladies desiring Hygienic medical treatment.

We have for the past ten years made the treatment of female diseases a specialty, and have treated a great number of females, both in the Institute and in their private residences in this city, Sacramento and Oakland, who were suffering from Displacements, Prolapsis Uteri, Uterine Hemorrhage, Sterility, Curvatures of the Spine, Inflammations, Congestions, and ALL NERVOUS DISEASES, together with diseases common to all.

The ease and rapidity with which the varied diseases and conditions above mentioned have been overcome, especially in the vicinity of the Bay, fully warrant us in declaring that there is not one female in a hundred who is thus afflicted but that can be made well and happy in from three to six weeks by thorough Hydropathic and Hygienic treatment at our Cure. From all who have come to us and been treated, we have yet to learn a single *regret from* Husband or *Wife of the time, means or* trouble they expended in HYGIENIC MEDICATION, for they not only get well, but learn how to keep well.

Terms for Ladies, $20 a week, or $100 for six weeks (Board, Room and treatment).

DR. SMITH gives FREE Lectures to his patients every Wednesday evening, and also Lectures before the Ladies' Hygienic Society the first Wednesday in each month.

THE WILLAMETTE FARMER.

Devoted to Agriculture, and the other Industrial Interests of the North Pacific Coast.

RECOMMENDED BY THE STATE AGRICULTURAL SOCIETY.

THE NECESSITY WHICH HAS SO LONG EXisted in Oregon for a Journal where Farmers and other laboring men could meet and discuss their mutual interests, is obviated by the establishment of the WILLAMETTE FARMER.

The paper will advocate and labor for all interests that will advance the prosperity of the Farmer and Mechanic; and will have in view especially the encouragement of the cultivation and improvement of the soil, and the agricultural development of the State; fostering every branch of mechanical and household arts calculated to increase the happiness of home life, and extending and facilitating the various branches of Agriculture, Stock-Raising, and Mining and mining Interests.

Especial attention will be paid to the department of

Domestic and Eastern News.

And the subscribers to the FARMER will receive each week a careful and complete *synopsis of all* the news of the State and adjoining Territories, compiled from our exchanges and other sources, as well as a summary of Eastern telegraphic news,—thus furnishing our readers a complete

REPUBLICAN WARD MEETINGS.

The Republican voters of the City of Portland are re[quested] to meet in their respective Wards, at 7½ o'clock, Wednesday evening, June 16th, to nominate a candidate for Councilman, and to elect Seven Delegates to the City C[onvention] (the time and place of meeting of which will be given by notice hereafter).

The meeting in the First Ward will be held in Starr's [building], on Front street, to Young's Marble Yard, Front street. [Judges] — Wm. Dierdorff, D J Malarkey and L. H. Whitefield.

In the Second Ward, at the old Gymnasium Building, [Third] street, near Morrison. Judges — H. Trevitt, [Sam.] B. Parrish and O. B. Gibson.

In the Third Ward, at Harker's Building, corner Front and Columbia streets. Judges — David Monastes, Wm. [Bu]rk and P. J. Mann.

J. W. COOK,
W. W. SPAULDING,
Central Committee.

THE SEASON — THE COMING PEOPLE — The summer opens [early], with heat during the day of intensity to satisfy a [salam]ander, and a coolness at night requiring a mackin[tosh]. We have, as compensations, flower and fruits, as [large] and delicious as abound in the tropics. Of the [people] who daily arrive in the Golden City overland, [not] many know much more of an Oregon summer than [of] the lands of fiction; and all the information [they] get there — by begins at Montgomery street, goes [to] San Jose, and ends in Yosemite. The dingy [color] of the la[nd] — there of course arises from effects of the gold dust upon all creation; and the dust and [mud] in San Fr[ancisco] are, of course, only the gentle [remi]nders of Pa[cific] Ocean. There is a place up there some [where] on the coast this side of Alaska, but the stranger [won't] think of seeing so out of the way a place. It will [take] all the spare time he has to do the magnificent Cal[ifornia]. There are a few that have traveled before, and [some] who read the papers, saying nothing about Rich[ardson]'s and Bowles' books, who will venture into the [Sierras] and her glorious panoramas of mountains, [lakes] and green forests. Some may have eaten Oregon [salmon] in New York or Boston, and even tasted salmon [trout] resembling that of the Shannon. Some have friends [in] Oregon, whom they have promised to visit when the rail [road] is built. These all, and thousands more in due time, will be found and will be here, and most will stay and go to work. Let us welcome them with hearty cheer. [There] is room for a world of people, for a century of im[migration]. Here they meet a solid, civilized, progressive, and wide awake country, teeming with more of blessings and fewer of the ills of life than any land under the sun, East or West.

CITY. — The *Enterprise* furnishes the following items:

J. M. Bacon is collecting a fine lot of old coins. He has one silver piece coined in the time of Henry VIII [in the] year of 1509, according to all accounts, will be worth [more] than any of any previous year in Oregon. It has been [discov]ered in Clackamas county.

The Willamette Falls Canal and Lock Company have de[cided] the funds to pay for the entire right of way — and [expect] that work will be speedily commenced. [Mr. Ho]lmes, President of the company, is now at home [from] the East.

We did not get up a celebration in this city for Saturday, July 3d, but let us all go to Portland on Monday, and [then] about the 20th of October, or sooner, invite all [the] people to come here, on our Railroad Opening Celebration. The affair at Portland this Fourth (5th) of July [will be] a Grand.

The leading members of Oregon Lodge No. 3, I. O. [of] O. F., have the honor to the fraternity at [large] having devised a method of practical *work* for [the] Sons of Mo[rality]. As a result of their labors, [the] Grand Lodge for Oregon, which [was] instituted last month, will have now in this jurisdiction [a] Subordinate Degree No. 1, at Salem, and subsequently [a] Degree No. 2, at Oregon City.

SAN FRANCISCO MARKETS. — We clip from the C[ommercial] Herald of June 4th, the following items, which will [be] found here:

Flour — [The] market for best [brands] is uniformly active, with [sales] of flour and wheat. Prices, in consequence, [appear] to harden under the influence of a continued [good] requirement. The old crop of wheat yet [held] in the State is barely sufficient to last until [the] arrival of the new crop, which now promises to [be] ready for sale before the close of the current month, [and] will be sold in quantities sufficient to influence the [market] so as to admit of shipments of the new crop before the end of June or last of July.

There is a good export inquiry for Stanislaus [and] Oregon Extra and Superfine, including fa[milies] from Oregon; but for all outside or "second" brands in the interior, and whose reputation [is not] well [es]tablished, there is little sale, and at accompanying [prices] from our quotations.

The wheat market continues to be well supplied from our [own] and from Oregon, but recent export shipments [have] lifted somewhat the prices, and holders [quote] firm at the close.

ELECTION FIGURES. — The Democrats of this city held their primary elections Saturday evening. In the First Ward A. C. Mills was nominated as candidate for Councilman; [Dele]gates to City Convention, W. Healy, [C.] E. Hermiss, W. R. Wallace, L. Lewis, W. [H.] H. McCoy, L. S. Rosenbaum and James [Ward]. Committee, A. L. Lovejoy, D. C. Col[well], [Jo]hn K. Ho[ward]. The Democrats of the Second Ward nominated for Councilman [Wm.] M. Sellers; Delegates to City Convention, P. Logan, [J.] [Fo]ley, C. Fo[ley], M. J. Jeffreys, J. Lyon, Wm. [Wes]t, John Morgan and Chas. Deits. John C. Work, U. B. Hicks and P. B. Slinnott Ward Committee for the ensuing year.

The Democrats of the Third Ward nominated for Councilman [W. A.] G. W. Brown; Delegates to City Convention, Geo. H. [Him]es, W. Chamberlain and James Wilson. Ward Committee, [A. L.] Shaw, N. Lambert and Jas. Wilson. The [Democ]racy also nominated [for] Councilman for the Third Ward, to succeed [Mr. Ho]milton in Second Ward, published in the *Herald* yesterday morning, declining the [honor].

SHIPPING ISLANDS. — Mr. W. S. Oden has placed in our hands a letter from Honolulu, dated May 15th, from which we take the following extract which may be of interest to [many], and, possibly, others:

"No great excitement at present, and the only is the want of salt. We have several fishermen waiting [for it], but in a few days, we hope to see them in. There is a pond down about four miles [from town], which has a subterranean connection with the sea, where there are th[ousands] of tons, of a good quality. The King has taken hold of it and is turning out from twenty to thirty tons per day. This is done by nature and all to be done is to scrape it up. It is reported to be very pure and good quality. We have no doubt it will be like [it] does here — everybody will now make salt, [and] during it will be furnished at $8 to $10 per ton; [now] at about $20. Sugar, No. 1, 7½c; No. 2, [6½]c. Coffee, best Kona, 11@12½c. Molasses, nominal, [per] gal. Flour, $4 75@7 00, according to grade and [the] vessels market for six months."

THE NEW SECRETARY OF WASHINGTON TERRITORY. — Dr. [Scott], the new Secretary of Washington Territory, [arrived] in this city by the *Orifl[amme]*, and called upon us [yesterday]. He will leave by the boat this morning for [Olympia], and thence overland to Olympia. We find in the *Gazette* of May 27th, the following "pen [picture] notice of him: "Dr. James Scott, of Kalamazoo, [formerly] editor of the *Western Star*, and for many years [a prom]inent citizen from Warren county in the Ohio Leg[islature], arrived in Cincinnati this morning, by the overland [route] for Washington Territory, where he goes to assume [the duties] of the office of Secretary of the Territory. Dr. [Scott] has a State reputation as an earnest working [member] of the Republican party, and will take to the [discharge] of his duties the same ability which has made [him] prominent at home."

CIRCUIT COURT. — The Circuit Court will convene at 10 o'clock this morning.

WE HEAR that the steamer *Okanagan* caught fire [on] Saturday coming up the Columbia. Fire extinguished without much damage.

COUNTY COMMISSIONERS have made an order for the [appointment] of a Salmon Inspector.

H. B. Dufur has been appointed by the County [Court] Assessor for this county, vice John Cook[son] resigned. It is to be hoped that [the] work this year will be more satisfactorily done [than] it was last year.

THE "Hawks" and the "Actives" played a match [game] of base ball on Saturday, the former making 31 [runs] and the latter 42.

AT SUNDAY SCHOOL PICNIC. — The several Sunday schools of Trinity and St. Stephens of Portland, St. [John's], Vancouver, St. Johns, Milwaukie, and St. Paul, [Oregon] City, united in an excursion and picnic, on Saturday, going by steamers *Fanatic Troup* and *Senator*, to [Oswego] Grove. The day passed off pleasantly to all [concerned], with the exception of a serious accident to [one] of the pupils — a son of Mr. A. H. Johnson — who [fell] from a swing, and broke his left arm. The picnic [was] attended by a considerable number of grown up people who [were] not tied into the sports of the day with a zest [little] less than that of the children.

ARRIVALS. — Several of our old citizens returned home [by the] Oriflamme after long absences, among whom are [Mr. Ca]rtwright and wife, J. Failing and wife and others.

Among the arrivals, we notice several for Washington [Territory]: Dr. James Scott, appointed Secretary for the Ter[ritory], Mr. E. Giddings, Captain E. H Tucker, and others.

Among those, there were many of our business men who have been absent for only a short time, and an unusual number of people who now set foot on Oregon soil for the first time.

EXPORTS. — From the 1st of January to the 1st of June the receipts of Oregon produce at San Francisco were, flour, qr sks 206,909; wheat, sks 20,035; oats, sks 43,699; barley, sks 240; salmon, bbls 628, half bbls 187, [kegs] 2,320, pkgs 222, bacon, pkgs 2,581; beef, bbls 447; butter, pkgs 142; cheese, pkgs 12; hams, pkgs 273; lard, pkgs 1,436; pork, bbls 825; dried apples, pkgs 2,650; [potatoes], tons 400.

NORTH PACIFIC RAILROAD. — The *Commercial* says: "We learn that the North Pacific Railroad Company will shortly start a surveying party under the superintendence of Mr. Giddings in a few weeks, from Olympia, to this city. [The] work will begin as soon as the first twenty miles of the road has been surveyed, and the road will be put [under] with all possible speed."

CITY HOUSE BURNED. — The House of John Dunbar, [near] Fairview Church, Sandy, was destroyed by fire on [Monday] last. The family had gone on a visit to a [neighbor] and on their return found the house in ashes [and] nothing saved. Dunbar had been making shingles but [a] few days and had burned the shavings. It is supposed [that] fire was communicated from the smouldering embers.

WE'LL TAKE MORE IN OURS. — The local of the *Herald*, speaking of the heat of last Saturday, says: "The thermometer stood at 91 degrees in cool places. If, at that pitch of heat, any place is to be considered cool, we'll not take anything cooling in ours.

THE CITY CHARTER. — We are indebted to Mr Trimble for a copy of the publication we mentioned some time ago — "The City Charter, Amendments and Ordinances of the City of Portland."

EAST SIDE RAILROAD. — It is said that work will be resumed on the East Side Railroad in the first of next month.

U. S. COURT. — Pursuant to adjournment, Judge Deady will hold a session of both the U. S. District and the U. S. Circuit Courts, to day.

ANOTHER HOT DAY. — Yesterday was another extremely warm day. The thermometer stood, in the afternoon, at 90 to 92 degrees, according to locality.

SALE OF REAL ESTATE. — At the auction sale held by Mr. A. B Richardson, on Saturday, Block No 134 — residence of Mr Asa Harker — was sold for $11,800.

WILL NOT PARADE. — The owners of the mammoth ox, Mt Hood, inform us that he will not parade with the procession on the 4th. We were wrongly informed.

FINE WORK. — Himes & Daly are now executing very fine work in the line of card printing.

Willamette Engine Company, No 1 — Special meeting this (Monday) evening, at 8 o'clock.
June 14, 1869 ED F ALBRIGHT, Secty

THE DAY fixed to commence work on the East Side Railroad is July 1st. By that time the Company will have sufficient Railroad Iron on the way or in Portland to complete twenty miles of road. Workmen without employment should be patient for the Company will give employment to a thousand men, at good wages, and of course KOHN & FISHEL will continue to sell the very best clothing in that time at remarkably low figures.

VALUABLE TESTIMONY. — The following recommendation comes from a source of such well known and indisputable character, that it requires no comment beyond its publication:

I have given '*Kane's Imperial Condensed Soap*' a thorough and impartial trial, and am satisfied it will do all that is claimed for it. I washed three dozen white shirts, using half a bar of soap. It did its work well, requiring no rubbing, and I cheerfully recommend it as the best Washing Compound I ever used.

NATIONAL

LIFE INSURANCE COMPANY,

OF THE

UNITED STATES OF AMERICA,

Washington, D.C.

CHARTERED BY SPECIAL ACT OF CONGRESS!

APPROVED JULY 25, 1868.

CASH CAPITAL,

$1,000,000.

OFFICERS:

CLARENCE H CLARK, Philadelphia, President.
JAY COOKE, Chairman Finance & Executive Committee.
HENRY D. COOKE, Washington, Vice President.
EMERSON W. PEET, Philadelphia, Secretary & Actuary.
E S. TURNER, Washington, Assistant Secretary.
FRANCIS G. SMITH, M. D., Medical Director.
J. EWING MEARS, M. D., Assistant Medical Director.

THE ATTENTION OF PERSONS CONTEMPLATING insuring their lives, or increasing the amount of insurance they already have, is called to the special advantages offered by the NATIONAL LIFE INSURANCE COMPANY.

NO MONEY SENT OUT OF THE STATE.

ALL PREMIUMS RECEIVED INVESTED IN THE STATE.

THE ADVANTAGES OFFERED ARE:

It is a National Company, chartered by special Act of Congress, 1868.
It has a Paid up Capital of $1,000 000.
It offers Low Rates of Premium.
It furnishes Larger Insurance than other Companies for the same money
It is Definite and Certain in its Terms.
It is a Home Company in every locality.
Its Policies are Exempt from Attachment.
There are no Unnecessary Restrictions in the Policies.
Every Policy is Non-forfeitable.
Policies may be taken which Pay to the Insured their Full Amount and Return all the Premiums, so that the Insurance costs Only the Interest on the Annual Payments.
Policies may be taken that will Pay to the Insured, after a certain number of years, During Life, an Annual Income of One-Tenth the amount named in the Policy.
No Extra Rate is charged for Risks upon the Lives of Females.
Insures Not to Pay Dividends, but at so low a cost that dividends will be impossible.

Its Policies are Negotiable.

By the Charter of the Company, certificates of obligations will be issued, agreeing to purchase its Policies at their value which, when accompanied by the Policy duly assigned or transferred, are negotiable, and may be used as collateral security, in making loans from the Company or from other parties.

The Hon. Jno. E Sandford, Insurance Commissioner of Massachusetts, in his Report for 1868, speaking of Dividends in Life Insurance Companies, says: "The sooner such guarantees cease to be made, and such expectations created, the sooner Life Insurance will come to rest on its true motive, and men insure their lives for security, and not for dividends. The best and most popular companies will then be those that promise only equity, and render all that they promise, and furnish the best security, with the most upright and judicious management."

"By the Stock plan, the full cash effect of the Premium is immediately secured to the Insured, the Company taking ALL the risk. By the Mutual plan, the full value in Insurance of the Premium paid, is not secured to the Policy-holder, who takes a portion of the risk himself."

CHARTRES COFFEE!
Manufactory Established in June, 1851.
STEAM POWER, NOS. 625 AND 627 FRONT ST.
HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE, GREEN COFFEE of the best qualities. CREAM OF TARTAR and SPICES of all sorts.
The undersigned, who has always enjoyed public confidence for the excellent quality of his Coffee, neglects nothing to justify the good name acquired by his productions, the sale of which daily increases. The acknowledged superiority of his merchandise, which commands here, and in the markets of the interior, a relatively higher price, excites the cupidity of some manufacturers, and every day he sees increasing the number of those who, by counterfeit or imitation of his mark, seek to deceive the public, palming upon them their inferior productions for the genuine G. VENARD CHARTRES COFFEE. This fraud can deceive nobody after a trial, but only adds to the favorable opinion of the consumers, the very flattering though unwilling testimony of the counterfeiters. Nevertheless, buyers should be forewarned, and placed on their guard against this practice.
BEWARE OF COUNTERFEITS.

Very Shabby Treatment.

In its Sunday morning's issue the *Herald* has an article on the late election in Washington Territory which contrasts remarkably with some of its former utterances. We extract the following from its Sunday morning confession:

A sage old saw runs in this wise: "Experience is a dear school, but fools will learn in no other." Now it has *been conclusively* proven that Democrats are no fools, for they will not learn in the school of experience. For eight long weary years they have been persistently hunting for some person fresh from the ranks of the Republicans to run as candidates. For eight long weary years they have been suffering defeat after defeat, and yet they apparently continue the programme. This programme has just been repeated in Washington Territory with the usual results. * * * Why was Gov. Moore nominated? The reason urged by his friends was that Garfielde was very unpopular among Republicans they would give him their support. It was urged that the most influential Republicans on the Sound would work for him. Moore was nominated. The Black Democracy was chagrined, but came up nobly to the work, as the vote of Walla Walla attests. But how, about Moore's strength among Republicans? How about the Sound country? The sorehead Republicans, from the day of his nomination to election day, sang smaller and smaller until the first Monday in June, when there was not heard the faintest peep. The Sound country that was expected to do so much, rolled up a tremendous majority for Garfielde. The disaffected talk of a few official Republican sorcheads had only the effect of stimulating the rank and file of the Radicals to renewed efforts. This has always been the result, and yet the Democratic party keeps on persistently hunting for new converts for candidates, and consequently direct roads for continued defeat.

Could anything exceed the ingratitude of thus making Gov. Moore the Democratic scape goat and insinuating that a bed rock Democrat would have run a better race? But it is good enough for Gov. Moore; he had no business to dishonor his record by going into such company. But in connection with the above, let us quote what the *Herald* said when Moore was nominated. Under the head of "Moore and Victory," it said:

The Democratic Convention of Washington Territory, last Thursday evening, nominated, on the eighth ballot, Marshall F. Moore as their candidate to Congress. This nomination was then made unanimous by the Convention. And the candidate thus nominated will be triumphantly elected at the first Monday of next June. The choice of such a man, of known ability and of proven personal bravery, as he has made received on the battle field best ample testimony. * * * When he saw the party in power endeavoring to use the efforts of a patriotic soldiery for the destruction of that which should be preserved, like a patriot as he is, he arrayed himself in the ranks of the constitutional Democracy, and will, from this time until the first Monday in June, fight with the same energy with which he fought on the battle field. Then let the Democracy of Washington Territory be up and doing. Let them light their watch fires on every hill top. Let their voice be heard along every valley. Let them stand shoulder to shoulder in the coming struggle, and the Ides of June will proclaim to the people of this nation their triumphant victory.

One would hardly suppose, from reading this, that the *Herald* then considered it "bad policy" to nominate Gov. Moore. That paper was then "all over the fact that its party had arrived in getting a soldier for its candidate." But it now gives him a rebuff and a blow for the defeat. It is the very treatment which Frank Blair received.

The Treasury Policy.

The new Treasury policy is generally commended by the commercial press and business men of the country, without distinction of party. The San Francisco *Commercial Herald* declares that "the devotion of surplus gold to the redemption of five-twenties exhibits broad, liberal views, looking far into the future, and will result not only in wiping out the principal of the indebtedness which hangs over the country, but ensures a steady annual return in the shape of gold interest. It is not a probable case that the Secretary will so far limit himself of coin as to be unable to meet any and all obligations legally presented for redemption. In the meantime our current revenues are far in excess of the receipts for the corresponding time last year. It is estimated that the total gold revenue for 1869 will amount to $175,000,000, which is $50,000,000 in excess of coin payments, and when we add to this the $92,000,000 of coin belonging to the Government on the 1st of May last, we fail to see the force of the policy which some bankers would urge upon Mr. Boutwell's attention. That gentleman has inaugurated a policy which is obliterating one per cent. annually of the entire public debt, and has done more to strengthen faith in our ability and desire to pay than all the wiseacres and intrusive advice-givers of the nation put together. It is a policy wholly at variance with the interests of gold gamblers and greenback speculators. The two millions of gold sold daily for the procurement of greenbacks and the purchase of bonds, seems to disturb them greatly, as it interferes with their schemes. Nothing could be more unwise than to suspend these purchases so long as there is surplus gold in the Treasury which can be applied to this purpose without infringing on the reserve necessary to meet interest payments and other expenditures, and an amount equal to the volume of three per cent. certificates which may be presented for redemption."

FREE TRADE.—*Figaro*, the little dramatic journal of San Francisco, has a brief article on this subject, in which it puts the whole matter in a nutshell, in this wise: "We do not think of any civilized nation that conducts its commercial affairs on the principle of free trade; and as a large portion of our public revenue is derived from the customs, it does not appear, in view of the enormity of the public debt, that the present is a good time to dispense with that source of income. The great question now is the extinction of the vast national debt incurred in the late war, and in addition to this we must raise money for the current expenses of the Government, which are every year necessarily increasing. The means to accomplish that must be derived from a very few sources, from taxes upon the products and income of our own citizens and duties upon imported merchandise. If the latter be remitted, the former must be correspondingly increased, so that the abolition of custom dues must unavoidably impose an additional burden of direct taxation upon all classes of people."

The incomes returned at San Francisco for the year 1868 show a decided increase over those for 1867. Claus Spreckles is on the list with $113,833; H. Miller, $100,117; Michael Reese, $100,120; A. Hayward, $100,000; Captain Thomas, $79,272; Lloyd Tevis, $62,688; Peter Spreckles, $61,899; J. Parrott, $60,028; with quite a large sprinkling whose incomes are in the immediate vicinity of the latter figures.

In General.

Garfielde's majority is about 140, with but one county, Stevens, to hear from. In that county the Democrats claim from 10 to 60 majority. Unless the Democratic managers have set the thing up for a big swindle in Stevens county, Garfielde will certainly have a majority of 75 to 100 in the Territory.

It appears that the sweeping charges against the administration of General Davis in Alaska, which were reported by telegraph a few days ago, come mainly from brevet Major Wood, Captain of the Ninth Infantry. Gen Thomas will visit Alaska in a short time to investigate the management of affairs there.

The *Herald* says the negroes of Washington City acted like savages on election day. Some of them did act badly it is true, almost badly enough to suggest a comparison between their conduct and that of the Democracy of New York. We have not heard, however, that the negroes of Washington City have yet hung any white men to lamp posts, roasted any white persons alive, or burnt any white orphan asylums. They are therefore yet some distance behind the New York Democracy.

The Washington Territory Legislature, at its last session passed an act to submit to the voters of the Territory, at the election just held, the question of calling a Convention to frame a State Constitution. The people, however, have taken but little notice of the matter. Very few votes were thrown on the question. By common consent it went by default. This indicates that the people beyond the river are not ready to take upon themselves the burdens of a State government. *It is just as well, for there is no probability* that Congress would admit them at present if they should apply.

It was reported by telegraph last week that the Republican leaders of Pennsylvania intended to go into the next State contest on the basis of Sumner's *Alabama* claims speech, on the ground that it would be popular and force the Democrats to follow their lead or take sides with England." The *Herald* published a leading article on this report, calling the Republican leaders "a set of unmitigated and unprincipled scoundrels" for announcing such a policy. It turns out, however, that the report was all a hoax, and the *Herald* now condemns the Republicans as cowards who are "in the leading strings of Europe" and dare not assert a policy hostile to Great Britain. The *Herald* is a truly consistent and valuable journal!

OREGON.

Marion county will build a bridge across Silver creek at Silverton.

The Corvallis municipal election takes place to-day (Monday). The *Gazette* says the issue will be whisky and anti whisky.

We met yesterday, says the *Unionist*, Capt. Dodge, of Yaquina Bay. He says matters over there are quite dull, and that about all that is being done is in the lumber trade. One schooner is making monthly trips between that port and San Francisco, and carries a hundred thousand feet of lumber at a time. *Another sawmill, on the Bay*, will be ready for cutting lumber in a short time.

A fire at Salem Friday morning burned the house of R. Moore. Loss about $1,500. Two young ladies named Nail, were stopping at the house, who lost about $300 worth of clothing and money. They had quite a sum in legal tenders and twenty or thirty dollars in coin. The coin was melted down and found in that condition. Mr. Moore had no insurance on his house. The fire originated from a lamp.

The *Unionist* thus describes a new thing: "The Salem Bag Factory completed yesterday, a canvass sheep corrall. The enclosure made by the canvas is one hundred and fifty feet square, and about three and a half feet high. The herders will carry this with them, and when night comes, they stretch it and drive the herd into it. It is estimated that a pen of one hundred and fifty feet square will hold a thousand sheep.

The Forest Grove *Monthly* says: The next Academy quarter will commence upon the last Wednesday in July. Mr. A. J. Anderson, A. M., is on his way from Illinois, overland, to take a permanent position as a member of our Faculty, in charge of the Academy. His experience and reputation justify us in expecting for him the very highest influence and usefulness as a teacher. He will have all needed assistance in his department. From henceforth we exect the Academy to rank with the best schools on the coast, and to furnish by a regular course of study all the education given in any Academy or Seminary.

GENERAL NEWS ITEMS.

Gen. Butler is said to be a candidate for the United States Senate, as successor to Wilson, and some of his friends also want him to run for Governor of Massachusetts.

The Commissioner of Internal Revenue has decided that *farmers* who have their *grain manufactured* into flour, and then sell the flour in any manner, must pay a license to the Government.

A Southern journal advises farmers to collect the seeds of sumac, and plant them like any other crop. It thinks cultivation would produce *sumac of a superior quality to that now gathered.*

Gen. August Willich, who commanded Union troops at the battle of Mill Spring, and declared that "dat vos shoost as goot fighting vot I vants," is the Cleveland Water Cure, for treat meat.

The Sultan is too poor to increase his standing army, and hence abandons it. The army will be thrown open to all subjects, however, on a plan which would seem to be similar to our State militia.

The Chicago *Tribune* notes a project for shortening the time between San Francisco and Europe to twelve days. A few years ago that period was reckoned a swift passage for steamers from New York to Liverpool.

The total taxable property in St. Louis, as returned by the President of the Board of Assessors, is $130,953,000; increase since last year, $20,330,000. Total in the county, $145,176,000; increase since last year, $25,637,000.

Secretary Boutwell proposes to have the returns of the sales of confiscated property in the rebel States overhauled, and it is rumored that some of the United States officials have neglected to pay the receipts from the sales into the Treasury.

Ex-Senator Lane of Indiana, has been appointed a member of the Indian Commission of ten, authorized by the last Congress to look after the Indians generally. The Commissioners work for love and honor only—no pay being allowed.

Bishop McIlvaine has arraigned the Rev. Colin Tate, of Columbus, for a violation of discipline in putting his choristers into surplices, and having them sing processional and recessional hymns in the service, contrary to the regulations of the Church and to the Bishop's prohibition. The case involves not merely a question of ritual, but also of the extent of the obligation of the clergy to obey their Bishops.

Ambitious Chicago proposes to recompense itself for the threatened loss of the grain trade, by the back door movement of water transportation to New Orleans. "Let Chicago," says the *Times* of that city, "seize upon Joddo. By this movement we would flank Russia in the Asiatic march, place ourselves in the rear of Europe, and possess ourselves of the future domain of that great empire 'which westward takes its way.'"

In order to vex their Russian oppressors, the Poles of Warsaw have suddenly taken a great liking to the German language. They cause their children to study German instead of Russian, and the German language is spoken at all places of amusement, while the Russian tongue is not used there at all. The Pole who speaks Russian is at once shunned in consequence by his countrymen as a renegade and traitor.

Mr Lincoln's coachman, horses and carriage now display Secretary Seward to the public gaze.

An Irish National Republican Convention has been called to meet at Chicago on the coming 4th of July. It is to be for the purpose of organizing the Irish American element of this country on a platform of equal rights and protection to American industry.

THE WEST.

First class fares from Sacramento to Promontory are now $50. Time, 49 hours and 50 minutes.

The White Pine mills have been charging $50 per ton for crushing ore, but have lately reduced the price to $25.

A fishmonger in Sacramento received an order from St. Louis, last week, for regular supplies of salmon, to be sent by the Pacific Railroad. He accordingly shipped a lot done up in ice. When Oregon obtains railroad connections she will supply the whole East with the finest salmon on the continent.

A San Francisco paper says: It is only two or three months ago that we were in the height of the velocipede fever. The Golden State Iron Works turned them out by scores, if not by hundreds, and they went everywhere. Now it is all of the past, everybody is tired of them, and we almost find it in our heart to say a word in favor of this flat sided hobby horse of the day. Mr. Knox informs us that the demand for the article has fallen off greatly. The Pavilion is found quite deserted.

An Illinoisian who came out to California with $10,000 in greenbacks with the intention of making that State his home, has changed his purpose, *as he says in a letter to the Alta, for the reason* that he "must lose about $2,850 by changing his kind of money for gold; because in consequence of the character of your currency there is little *credit here, and because when there is credit the rate of interest is too high.* I am not the only one who thinks that California would profit by a change of currency."

More from Train.

California papers continue to furnish reports of *lectures delivered by George Francis Train.* In his eighth discourse at the Metropolitan he again referred to the Chinese, as follows:

Have you not a Chinese doctor here, Li-po tai, who has a larger and more lucrative practice than any other doctor in the city? Is he any worse for being a Chinaman? Do you know that thousands of Catholic missionaries sent out by the Pope shave their heads and live and appear like Chinamen in order to travel in that country and convert the people to Christianity? Who set the *nobler part—these brave men who risk their lives* to convert the heathen and teach them the laws of life and brotherly love, or those who set dogs upon these unoffending men and teach children to pelt them *with stones, because they come here to* test the practical workings of that religion the missionaries preach, and to earn their bread by the sweat of their brow. It was an error of the head, and *not of the heart, that induced the Irish to* molest the Chinese. It was a fatal error, though. It was a weapon that cut both ways. If we can prevent Chinese coming to our shores, why not prevent the people of other countries? Who shall mark the line where proscription shall end? Twenty years ago, when he was a member of the firm of Train & Co, he had been interested in bringing over thousands of Irishmen to the United States. When the Know Nothing party was in power his firm had been cursed for bringing them over. The same arguments the Irish use against the Chinese the Know Nothings used against the Irish. The whole nation has reaped the advantages of the labor and the enterprise of the Irish, and so it will do by the labor and enterprise of the Chinese when the film of prejudice shall have been removed from our eyes and those patient people shall be allowed to work out their own salvation and are allowed a fair show in the great battle of life. He expected to be President of the United States in 1872, but he did not want to be so by the vote of any man who had such a mean estimate of himself as to say that he was afraid of the competition of a poor Chinaman. [Applause and laughter.] All who are in favor giving the Chinamen fair play say, "Aye." The whole audience responded. Some one in the crowd said that the Chinamen were different from the white men in their habits. "Yes," said Train; "they don't get drunk and reel about the streets; they don't destroy their vitality by chewing tobacco like some white men."

A Hard Shell Sermon.

"And he passed on to Shunem."

The words of my text, my hearers, you may find in II Kings, vi. chapter, verse 8—"And he passed on to Shunem."

Take to heart the lesson our text teaches and when temptations try you, "pass on to Shunem."

And oh! my hearers—if you should come into some of our little towns and behold a row of nice little offices with the *signs* on the door of each, and hear a man talk of attachments without affectation, and sequestration without quiet—ah, it will be to your profit to mind the words of the prophet and "*pass on to Shun em!*"

And if you go round where the merchants are—eh, and they rush out to shake hands with you, and are especially anxious to learn the condition *of your, wife's health and the children's*, and the farms and crops, and offer to sell you a little bill of goods a good deal lower than their cost, on account of their love for you and for each—ah—"pass on to Shunem"

And if you should happen to go round the corner and see men drinking beer, that will bring to the bier, and gin sling that will sling down the strongest, and smashes that will smash a man's fortune faster than commission merchants who advance supplies on the last crop—ah—"pass on to Shunem."

But, oh, my hearers, if you should go down to New York, that modern Sodom and Gomorrah—ah—and when the gas lights are flashing and glimmering, and the cabs are dashing along the streets—and obliging drivers are offering to carry you where only steamboat captains and the first gentlemen go—ah—and Broadway is on a rip and roar—and the brass bands are clashing music from the balconies—and men in little holes are ready to sell you tickets to go in and see the Black Crooks dancing with nothing to wear—and make spectacles of themselves—ah no, my friends, "pass on to Shunem."

And oh! if in the evening, with a very particular friend, you go up stairs into most splendidly furnished rooms—ah!—and see the supper table spread with delicacies from every clime and country, and teal ducks, and snipes, and yaller legged pheasants, and all that flesh, flesh and fowl can afford, and champagne and brandy, and Burgundy, and Chateau Lafitte, older than Waterloo, and nothing to pay and all free, and a nice gentleman with rings on his fingers and a diamond breast pin, playing with little spotted pasteboards, and another turning a little ball that rolls round and round and stops sometimes on the eagle bird, and oftener don't, and where the players generally put down more than they take up, and then sometimes win, but mostly don't—ah—oh, "pass on to Shunem."

And in conclusion, my friends, when the world, the flesh, and the devil—ah—lie in wait for you—"pass on to Shunem."

VARIETIES.

St. Louis enjoys the distinction of being the only American city that produces an organ devoted wholly and absolutely to pure metaphysics —*O Boston!* where is thy blush?

A gentleman traveling in a railway carriage was amused by a constant fire of words between two ladies. One of them, at last, kindly inquired if their conversation did not make his head ache. When he answered, with a good deal of ingenuousness, "No, ma'am, I've been married twenty years."

Southern journalists sometimes adopt a style of writing which has the merit of candor, if not of studied courtesy. Thus the Raleigh (N. C.) *Standard* observes "The Milton *Chronicle* says the hangman is waiting at our door. This is the first intimation we have had that the editor of that paper had called upon us."

A Democratic paper, telling how the Republicans despise both Johnson, Andy and Reverdy, says: "If every man in the Radical party were dead, and the angel Gabriel should appear under the *dome of Johnson*, nine-tenths of them would refuse to be resurrected on any terms." That's so, they believe in no such angels.

Fanny Fern says "A woman, by taking a big basket in her hand and leaving her hoop at home, and pinning an old shawl over her head, and tying a calico apron round her waist, may walk unmolested at any hour in the evening. I know it, because I have tried it when I felt like having a 'prowl' all alone, and a good 'think,' without every puppy saying, at every step, 'A pleasant evening, Miss.'"

OUR SAN FRANCISCO DISPATCH.

SAN FRANCISCO, June 13.—The Eastern line was out of order east of Omaha last night.

Major Jack Stratman has *issued the prospectus* of a new cheap evening paper, to be called the *Daily Evening Tribune.* The *Tribune* will be published, the Major says, in the interest of the masses. It will be issued at twelve and a half cents per week and make its first appearance about July 1st.

The Pacific Mail Steamship *Colorado*, arrived from Panama yesterday, bringing a large number of passengers and a heavy freight.

The work of demolishing the old Calvary Church, on Bush street, is nearly completed. An elegant brick structure will be erected on the site.

The engagements at the Labor Exchange yesterday were 128 men and 7 women.

Weather cloudy and cold.

Several picnic excursions are out of town this morning.

Monetary

Gold closed in New York yesterday at 139¾.

Mining Stocks.

Mining stocks yesterday afternoon on the streets were very panicky. The White Pine stocks are again in favor and speculation looks towards these shares.

The morning papers publish the following short cable dispatches:

"LONDON, June 12.—The *Times* says the state of affairs in Paris is as follows: The crowd which demolished the Kiosques, sung the 'Marsellaise' at midnight. It is not political power that is to be feared, but we must remember that it is a long time since a crowd disturbed the peace of Paris."

Shipping.

Arrived—U. S. steamer *Pensacola*, 9 days from La Paz.

British ship *Whittington*, 102 days from Liverpool.

Bark *Chas. Devens*, 6 days from Coos Bay.

Schooner *Shooting Star*, 170 days from Camden, Maine.

Sailed—June 12th, *Mary Glover*, Port Discovery.

Ship *Shooting Star*, Nanaimo.

Bark *Live Yankee*, Astoria.

Bark *Emma Augusta*, Port Townsend.

Schooner *May Queen*, Noyo River.

Yreka Races.

YREKA, June 12.—The closing race of the spring meeting over at the Agricultural Park Course came off to day. Three mile heats, best three in five, was free for all, for a purse of $300 and $100 entrance added. S. S. Ford named bay gelding Rattling Jack, five years, by Independent; A. Martin named gray horse Glenn, five years, by Rifleman; J. King named bay horse Shooting Star, four years, by Bay Bob. At the tap of the drum Jack and Star got off together, with Glenn two lengths behind, in which position they ran to the quarter mile pole, when Glenn took a position alongside, and nose to nose they passed the half mile pole in 54 seconds. Around the turn Glenn fell off a little, but made a handsome brush on the home stretch, all going under string together, Jack eighteen inches ahead of the other two. Time, 2.34. Star was distanced for foul riding. On examination it was found that Glenn had cast both fore plates and crippled his feet badly. The judges allowed him to be withdrawn in consequence, and Jack took the money. Much disappointment was manifested as the race promised to be the best and most exciting ever run in the county.

BY STATE TELEGRAPH.

JACKSONVILLE, June 13.—A man named Oliver Evans committed suicide in this valley, last Monday, under horrible circumstances. He was charged with incest with his own daughter, a girl *of sixteen. He went to the mountains* and shot himself. The body was found yesterday, badly decomposed. The girl has confessed that the charge was true. He was a widower, and leaves *considerable property.*

The San Francisco Mining *Press* says: "The Oregon iron rolled in this city makes first rate wrought iron for blacksmiths' use. Oregon iron has been pronounced rather tough for castings, but that quality is very desirable in wrought iron.

Spiritualists' Grove Meeting.—There will be held a three days meeting of the Spiritualists at Eli Cooley's Grove, "Travelers' Home," near Belpassi, on the road from Salem to Oregon City, commencing on Friday, June 18, 1869. All Mediums, Trance Speakers, Lecturers, Spiritualists and the public are invited to attend. MANY SPIRITUALISTS.

"LIFE SAVINGS AND LOAN BANK."—The people of the city patronize the OREGON DISPENSARY in order to save money and procure a loan of longer life by using our FRESH, PURE and RELIABLE remedies, which are daily dispensed and preferred by the MOST RESPECTABLE and TALENTED PHYSICIANS in the city. Every Lady takes a pull in patronizing our Store and thereby obtain DIVIDENDS by purchasing not only their medicines but also their toilet articles and other *ticlas*, too numerous to mention. HOAGLAND'S
NEW PATENT SHAFT COUPLING!
W. E. COOPER
HAS PURCHASED THE RIGHT FOR THIS County of the above Patent, and will hereafter use it in the construction of all the Vehicles manufactured at his extensive
Carriage Factory,
Corner of Second and Morrison Streets.
He respectfully refers to the following
CARD.
Having examined the New Patent Shaft Coupling, invented by H. B. Hoagland, we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used.
It fastens without bolt or screw, and is therefore, easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant, and is convenient, safe and secure.
It is easy to change to this style of coupling any buggy or other vehicle now in use, and with small expense. We have come to the conclusion to use this new invention ourselves and recommend its use in all cases. We consider it far superior to the Brewster Patent, heretofore considered the best in use.

[DISPATCHES TO THE OREGONIAN.]

DATES TO JUNE 11.

Washington News.

WASHINGTON, June 11.—The loss by the robbery of the Bank of Santa Fe, is only thirty-three thousand dollars.

Eight National Banks have ceased to be the depositories of Government funds since the fifth of June.

NEW YORK, June 11.—Secretary Boutwell is at Groton.

The coupons of the first mortgage bonds of the Union Pacific Railroad, due July 1st, will be paid in gold, free of Government tax, Friday, June 25th, at the Boston office, and in New York on Thursday, July 1st.

CHICAGO, June 11.—The *Republican's* Washington special says it is rumored that the British Minister, Thornton, will be sent to Madrid and will be superseded here by an English diplomatic representative, of the highest ambassadorial rank, who will, through liberal hospitality, ascertain the senatorial sentiment, before further negotiations for the settlement of the *Alabama* question.

The Government paper mill has forwarded the first lot of the new improved greenback paper, to the National Bank Note Company. The paper is known as the French Silk variety. Through its fibers run threads of red and blue colors.

Commissioner Delano has issued an order directing that hereafter, no applications for release of seizures of tobacco, whisky or other articles, shall be considered by the Bureau, until reports are received from the local officers making the seizure.

General Sickles has been granted leave of absence for one year, in order to allow him to accept the Spanish Mission, without resigning his rank in the army. The question has arisen whether Sickles and Badeau can retain their positions in the army, after accepting foreign appointments. The law provides that when an army officer accepts a civil office, he thereby vacates his commission in the army; but some Government officers doubt if this applies to Sickles and Badeau, who are on the retired list.

The *Tribune's* special says the Court of Claims, at its last term, rendered a judgment in about thirty cotton cases, some involving large amounts of money. Appeals have been taken in four of these cases.

The Sons of Temperance have 1,968 Divisions, 96,573 members and 30,781 lady visitors.

Admiral Porter has bought the fine house in Washington formerly occupied by the British Minister, and no longer has any official connection with the Naval Academy, but gives his whole time to the Department Board.

Army officers applying for extended leaves of absence are informed that a compliance with their request will throw them out of their regiments.

Examiners will be appointed for all the Bureaus in the Interior Department.

New York News.

NEW YORK, June 11.—The steamship *Quaker City* was formally released to-day by the United States Marshal, and will sail immediately.

The body of Francis Woddell, insurance clerk, who has been missing ten days, was found floating in the bay, with a large scalp wound on his head. He was probably robbed and murdered. He had served during the war as Colonel of an Illinois regiment.

Small pox is reported to be increasing in the city. Thirty cases were sent to the hospital during the past two weeks, as many as three of which were taken from one vessel.

The Saratoga Union Hotel ball room has been engaged by a committee of Cubans for a fair to be held in the last week in June.

The *Tribune's* New York special says that James Gordon Bennett, Jr., will sail for Europe in the yacht *Dauntless*, about the 20th of June. Three other yachts will sail about the same time.

Frauds in the Paymaster's Department, to the amount of $70,000, have been discovered. Forgeries were skillfully performed by a clerk in the Government office.

The excitement in Wall street over Mariposa stock has entirely subsided, and the bulls have control of the market.

The meeting of the opposition to lay representation in the General Methodist Conference took place last night at the Thirtieth Methodist Church. Drs. Porter, Foote and Cobb were speakers.

Texas Republican Convention.

WASHINGTON, June 11.—The Texas Republican Convention met on Tuesday. J. G. Tracy was chosen President. A resolution was adopted approving the course of Gen. Reynolds in bringing prisoners to trial. E. J. Danes was nominated by acclamation for Governor; J. W. Flanigan for Lieutenant Governor; Frank Carter for Controller of the Treasury; Ressichler for Commissioner of Land Office. Bachter made a speech condemning the course of J. Hamilton.

A resolution recommending the enfranchisement of whites was adopted on Wednesday.

The Convention nominated Price, of Austin, for State Treasurer.

The State Central Committee was appointed; also a committee from each Judicial district, to collect funds to carry on the canvass.

National Typographical Union.

ALBANY, June 11.—In the Typographical Convention to day a new constitution was reported. Resolutions were adopted to send two delegates to the National Labor Union. Cincinnati was settled on as the place of the next meeting.

The Committee on returns reported 7,445 members in good standing. There have been 2,256 members initiated within a year, and 144 have been expelled, and 176 restored under amnesty.

The Committee on Subordinate Unions reported favorably on the following subjects: That apprentices to the printing business should have a good grammar education, rejected; that an organizer of subordinate Unions in Canada and the Eastern States be appointed, his expenses to be paid by the National Union—tabled.

The Committee also reported sustaining the action of the Erie Union, for publishing certain parties as rats, for which they were sued by the publishers of the *Dispatch*. The clause was amended by a pledge giving the efforts of the members of the Union to secure the repeal of the conspiracy and libel laws, and then adopted.

The Convention then went into Committee of the Whole on the new Constitution. A debate arose on the second section which contained a provision looking to the granting of charters for women's unions.

An amendment against women charters was lost.

The third section providing for the granting of charters for women's unions was then read and amended so as to allow women to join other than women's unions. The section was then adopted, but with one or two dissenting voices.

The section requiring that delegates to the National Union shall be members in good standing was also adopted, and the instrument was then adopted as a whole.

Miss Augusta Lewis, President of the Women's Typographical Union thanked the Convention for its action.

Beroth offered a resolution that it was unjust for members of the Union to receive and do work taken from a place where there is a strike—adopted.

ALBANY, June 11.—In the Typographical Convention to night reports were adopted condemning the Associated Press, and favoring the Postal Telegraph Department, against making religion or politics the test for employment in the Government or individual printing offices, and denouncing the act of the Congressional Printer in employing Douglass, an alleged "rat." An amendment as a substitute for the latter objecting to the admission of negroes into any Union was rejected by 38 to 51, and the resolution itself was referred.

Southern States.

NASHVILLE, June 11.—The *Press*, which has hitherto been the organ of Stokes, has changed editors and declared for Senter. The movement in Senter's favor appears to be gaining strength, three leading Republican journals, the *Knoxville Whig*, *Nashville Press* and *Memphis Post* are all for Senter.

Nelson Walker, an intelligent colored man, announces himself a candidate to represent Nashville and Davidson counties in the next Legislature. His platform is universal suffrage and general amnesty.

RICHMOND, June 12.—A duel growing out of an article in the Petersburg *Index*, denouncing Robt W. Hughes, a contributor to the Richmond *State Journal*, a Republican organ, was arranged for to-day at Chester, near this city, between W. E. Cameron, editor of the *Index* and Mr. Hughes. It is thought the fight will be renewed in another State.

NEW YORK, June 12.—The *Tribune's* Atlanta special says, the argument before the Supreme Court, on the eligibility of negroes to hold office, was concluded to-day by a speech from ex-Gov. James Johnson in favor of the negro.

The Racing Season.

NEWBURG, June 11.—At the race between Lady Thorne and Mountain Boy, the latter won in three straight heats. Time, 2:29¼, 2:33¾ and 2.28.

BOSTON, June 11.—At the trot to day between American Girl, Dashwood and Goldsmith Maid, American Girl won easily in three straight heats, in 2:27, 2:26¾ and 2:28¼.

Miscellaneous.

ST LOUIS, June 11.—W. F. Switzler has sued Francis Rodman, Secretary of State, for $20,000 damages for incorrectly counting and certifying to the election returns in the 9th District, whereby he fails to receive a certificate of election.

BOSTON, June 11.—The slaughter house and outbuildings of H. B. Greenough, at Brighton, were burned to-day. Loss, $20,000.

OMAHA, June 11.—A large number of tourist are going to the mountains and to the Pacific coast.

The Indian Superintendent has been visiting the various agencies and making changes to improve the condition of the Indians and protect the Government against fraud.

Indian depredations are reported below Fort Kearney. Nothing serious.

KEY WEST, June 11.—The ships *Penobscot* and *Saratoga* sail for the North to-day. The sick are doing well.

LOUISVILLE, June 11.—The remains of Lieut. P. J. Farrell, an officer of the Fenian organization were refused the burial rites of the Roman Catholic Church. The Fenian Brotherhood appeared in the church in regalia, and the body was taken from the church and followed to the cemetery by a large concourse of Fenians. This action of the priest has caused a profound sensation.

BOSTON, June 11.—The President will leave New York on Tuesday night and arrive in Boston on Wednesday morning. He will attend the Peace Jubilee and review the military.

Kansas Dispatch.

WATERVILLE, KANSAS, June 12.—The mail carrier from Salt Marsh reports one Swede and boy killed by a party of Sioux, on Wednesday. Trouble is apprehended.

The superintendent of the New York Colony was here to-day, and says the colony, with the exception of some twenty who enlisted, have come in as far as Washington, most of them homesteads in that vicinity.

Paraguayan News.

NEW YORK, June 11.—European mails have the following Paraguayan news:

Paraguay advices by mail from London state that a Brazilian regiment of cavalry in the advance guard of the allied armies, was surprised and entirely destroyed by Lopez troops.

The expeditionary corps which landed at Rosario, was surprised and in great part killed or captured by the Paraguayans.

A gunboat towing the *Ockata* up the river Tibicuary with provisions for the army, was boarded by the Paraguayans, who killed the allies and took possession of the cargoes of both vessels.

The allied armies were still in Ligine.

Cuban News.

WASHINGTON, June 11.—Recent advices from Cuba state that the difficulties between the Spanish officials and the organized volunteers are on the increase. The latter have now almost entire control of the government of the island. Such is their power that they have forced the Acting Captain General to countenance the requisition of Dulce on the Home Government for a reinforcement of 500 regular troops.

CHICAGO, June 11.—It is stated that the recognition of the Cuban belligerents has been again strongly urged upon Secretary Fish. Mr. Reuse, Secretary of Lenieur, the Cuban Agent, had a conversation with him recently, and argued that considering the recent attacks of volunteers in Havana, Spanish dominion in the Island has ceased, and the Cuban Government is certainly more of a *de facto* institution than one so completely revolutionized as the Spanish Government at Havana has been by the forcible disposition of Dulce. Secretary Fish said he would return an answer in a few days. Mr. Reuse feels quite sanguine that his Government will be recognized.

BY ATLANTIC CABLE.

LONDON, June 11.—The agitation in Paris last night continued until midnight. The troops occupied Montmartre and vicinity and the cavalry paraded through the streets all night. Shortly after midnight the crowds in the streets in the Montmartre district broke through the line of police and formed a barricade, but were dispersed and pursued by the troops. Many windows were broken and other damage done to property in that quarter. The cavalry charged on the crowds in the streets several times; many citizens were wounded and one killed. The police have been very active. It is reported to day that they made nearly six hundred arrests since midnight. Further disturbances are apprehended, and extraordinary precautions have been taken by the Government to prevent them.

The *Patrie* and other Paris journals give returns showing the elections of 199 officials and 93 opposition candidates.

Several editors have been arrested on a charge of conspiracy.

The *Great Eastern* has gone to Portland, England, for coils of wire, and will leave that port to-morrow for Brest, where she will soon proceed to lay the cable to the United States. A banquet was given last night on board the *Great Eastern* to celebrate the successful landing of the new French cable. Among the toasts was "America and France," appropriately responded to by representatives of the several nations.

Telegrams from Merethyr Tydoil, Wales, report the disaster in the colliery less serious than was first given. Fifty-six bodies have been recovered, and it is thought that the number killed will not exceed seventy-six persons.

Another appalling disaster occurred in Newcastle to-day by an explosion, cause unknown. It took place while the men were at work, and only a few of the miners escaped from the pit. It is reported that 120 were killed.

MADRID, June 10.—In the Cortes last evening the budget for the coming year was discussed. Figuers, Minister of Finance, stated in reply to a question, that a reduction in the estimates is impossible.

BERLIN, June 11.—Two German expeditions for arctic explorations, which have been preparing for some time at Bremen, are now ready, and will sail on the 15th inst.

MADRID, June 11.—The Duke De Montpensier writes to the Cortes that as a Spanish citizen and soldier he acknowledges his respect for the new Constitution voted by that body.

LONDON, (midnight, June 11.—In the House of Lords this evening, Lord Bateman asked the intention of the Government in respect to the Irish Church bill. Earl Cameron and Lord Carnes opposed the question as unnecessary and inexpedient at the present time. Earl Granville, Secretary of State and the Colonial Departments, said in response to rumors that the Government had no intention to depart from the respectful course due the House of Commons.

The Duke of Abercorn presented a petition from the citizens of Belfast and vicinity, containing 80,000 signatures against the disestablishment of the Irish Church. In his remarks on the occasion, he said that this petition emanated from the most important demonstration ever held in Ireland.

PARIS, June 11.—The Emperor and Empress to-day drove through the Montmartre district, which was filled with crowds of people who enthusiastically cheered.

Three members of the editorial staff of the *Siecle* newspaper, and several of the Rochefortite electors have been arrested.

Domiciliary visits have been paid to several houses. There have also been several private seizures.

General Cluseret has been expelled from France.

Great crowds of people still continue in the streets in Montmartre and other quarters of Paris, and the agitation and excitement are unabated. The Emperor and Empress, however, passed through the streets again this evening, in an open carriage, with only the usual number of attendants.

OUR SAN FRANCISCO DISPATCH.

SAN FRANCISCO, June 12.—The city is full of pickpockets. Several persons were relieved of watches, purses, etc., lately, and the thieves escaped in every instance.

The steamer *Constantine* arrived from Sitka to-day with about twelve thousand dollars worth of furs.

A box of early choice ripe peaches appeared in market to-day.

The General Committee on the Fourth of July celebration met last night. Gen. A. W. Winn was chosen Marshal. The Democrats seem to have things their own way.

From the Dalles.

DALLES CITY, June 9th, 1869.

EDITOR OREGONIAN:

The liveliness of this town has been somewhat depressed this summer. Our trade with Idaho is not what it was; and he who visited this city some years ago, when it was the lively market for the mining camps in the interior, will see a vast difference in

WHAT IT NOW IS.

The mining trade has almost left the Columbia and the Dalles will have to depend upon its own natural resources for future prosperity. The mines in Eastern Oregon have come down to a level at which I think they will continue paying Chinaman's wages. We must rely more upon our agricultural and grazing facilities than we have heretofore done. Real estate of all kinds has gone down fifty per cent. within the last three years, and at present there is hardly a street in in this city but half its houses are vacant. Rent has decreased one-half, and residences that could formerly be had for $15 a month now rent for $8.

THE MINT

Has given employment to quite a number of laborers and some few mechanics, principally from a distance. The basement walls are now completed, and a great deal of brick work has been done.

BRICK-KILNS.

Two of these have been burned, and the third is ready to be fired. The Albany brick machine is on the grounds in full operation. The bricks look to be very good. Some six

IMMIGRANT FAMILIES

Passed through here a few days ago, en route to the Bitter Root country. They were from the Willamet valley.

FRUIT

Of all kinds will be abundant this year. The trees in all the orchards are laden with all varieties. A great many kinds of fruit are already in the market.

THE WEATHER

Has been remarkably pleasant. The smoke and mist that we had last week has all blown away, and the atmosphere is clear again.

"REG. HAND,"

In company with Gov. Woods, Dr. B. W. Mitchell, and G. B. Waldron, left on an excursion
